

Faculty Review of Open eTextbooks

The [California Open Educational Resources Council](http://www.cool4ed.org) has designed and implemented a faculty review process of the free and open etextbooks showcased within the California Open Online Library for Education (www.cool4ed.org). Faculty from the California Community Colleges, the California State University, and the University of California were invited to review the selected free and open etextbooks using a rubric. Faculty received a stipend for their efforts and funding was provided by the State of California, the William and Flora Hewlett Foundation, and the Bill and Melinda Gates Foundation.

Overall Comments

If you were to recommend this textbook to colleagues, what merits of the textbook would you highlight?

- The information and coverage is good (lacking journalism), but is overall good for a free book.

What areas of this textbook require improvement in order for it to be used in your courses?

- This would be best printed out as the layout is difficult to follow on screen.
